1. For the purpose of implementing this Agreement, the following products shall be considered as originating in Turkey:
 - (a) products wholly obtained in Turkey within the meaning of Article 5;
 - (b) products obtained in Turkey incorporating materials which have not been wholly obtained there, provided that such materials have undergone sufficient working or processing in Turkey within the meaning of Article 6.
2. For the purpose of implementing this Agreement, the following products shall be considered as originating in Georgia:

 - (b) products obtained in Georgia incorporating materials which have not been wholly obtained there, provided that such materials have undergone sufficient working or processing in Georgia within the meaning of Article 6.

Article 3 Bilateral Cumulation in Turkey

Materials originating in Georgia shall be considered as materials originating in Turkey when incorporated into a product obtained there. It shall not be necessary that such materials have undergone sufficient working or processing, provided they have undergone working or processing going beyond the operations referred to in Article 7.

Article 4
Bilateral cumulation in Georgia

Materials originating in Turkey shall be considered as materials originating in Georgia when incorporated into a product obtained there. It shall not be necessary that such materials have undergone sufficient working or processing, provided they have undergone working or processing going beyond the operations referred to in Article 7.

Article 5
Wholly obtained products

1. The following shall be considered as wholly obtained in Turkey or in Georgia:
 - (a) mineral products extracted from their soil or from their seabed;

Article 6 **Sufficiently worked or processed products**

1. For the purposes of Article 2, products which are not wholly obtained are considered to be sufficiently worked or processed when the conditions set out in the list in Annex II of this Protocol are fulfilled.

The conditions referred to above indicate, for all products covered by this Agreement, the working or processing which must be carried out on non-originating materials used in manufacturing and apply only in relation to such materials. Accordingly, it follows that if a product, which has acquired originating status by fulfilling the conditions set out in the list is used in the manufacture of another product, the conditions applicable to the product in which it is incorporated do not apply to it, and no account shall be taken of the non-originating materials which may have been used in its manufacture.

2. Notwithstanding paragraph 1, non-originating materials which, according to the conditions set out in the list, should not be used in the manufacture of a product may nevertheless be used, provided that:
 - (a) their total value does not exceed 10% of the ex-works price of the product;
 - (b) any of the percentages given in the list for the maximum value of non-originating materials are not exceeded through the application of this paragraph.

This paragraph shall not apply to products falling within chapters 50 to 63 of the Harmonized System.

3. Paragraphs 1 and 2 shall apply subject to the provisions of Article 7.

Article 7
Insufficient working or processing operations

1. Without prejudice to paragraph 2, the following operations shall be considered as insufficient working or processing to confer the status of originating products, whether or not the requirements of Article 6 are satisfied:

 - (c) washing, cleaning; removal of dust, oxide, oil, paint or other coverings;

undergone by that product is to be regarded as insufficient within the meaning of paragraph 1.

1. The unit of qualification for the application of the provisions of this Protocol shall be the particular product which is considered as the basic unit when determining classification using the nomenclature of the Harmonized System.
Accordingly, it follows that:
 - (a) when a product composed of a group or assembly of articles is classified under the terms of the Harmonized System in a single heading, the whole constitutes the unit of qualification;
 - (b) when a consignment consists of a number of identical products classified under the same heading of the Harmonized System, each product must be taken individually when applying the provisions of this Protocol.
2. Where, under general rule 5 of the Harmonized System, packaging is included with the product for classification purposes, it shall be included for the purposes of determining origin.

Article 9 **Accessories, spare parts and tools**

Accessories, spare parts and tools dispatched with a piece of equipment, machine, apparatus or vehicle, which are part of the normal equipment and included in the price thereof or which are not separately invoiced, are regarded as one with the piece of equipment, machine, apparatus or vehicle in question.

Article 10 **Sets**

Sets, as defined in general rule 3 of the Harmonized System, shall be regarded as originating when all component products are originating. Nevertheless, when a set is composed of originating and non-originating products, the set as a whole shall be regarded as originating, provided that the value of the non-originating products does not exceed 15 per cent of the ex-works price of the set.

Article 11 **Neutral elements**

In order to determine whether a product originates, it shall not be necessary to determine the origin of the following which might be used in its manufacture:

- a) energy and fuel;

- b) plant and equipment;
- c) machines and tools;
- d) goods which do not enter and which are not intended to enter into the final composition of the product.

 - (a) the returning goods are the same as those that were exported; and
 - (b) they have not undergone any operation beyond that necessary to preserve them in good condition while in that country or while being exported.
3. The acquisition of originating status in accordance with the conditions set out in Title II shall not be affected by working or processing done outside Turkey or Georgia on materials exported from Turkey or from Georgia and subsequently re-imported there, provided:
 - (a) the said materials are wholly obtained in Turkey or in Georgia or have undergone working or processing beyond the insufficient operations listed in Article 7 prior to being exported; and
 - (b) it can be demonstrated to the satisfaction of the customs authorities or other competent authorities that:
 - i) the reimported goods have been obtained by working or processing the exported materials; and

the non-originating materials incorporated is applied in determining the originating status of the end product, the total value of the non-originating materials incorporated in the territory of the party concerned, taken together with the total added value acquired outside Turkey or Georgia by applying the provisions of this Article, shall not exceed the stated percentage.

5. For the purposes of applying the provisions of paragraphs 3 and 4, “total added value” shall be taken to mean all costs arising outside, Turkey or Georgia including the value of the materials incorporated there.
6. The provisions of paragraphs 3 and 4 shall not apply to products which do not fulfil the conditions set out in the list in Annex II and which can be considered sufficiently worked or processed only if the general tolerance fixed in Article 6(2) is applied.

8. Any working or processing of the kind covered by the provisions of this Article and done outside Turkey or Georgia shall be done under the outward processing arrangements, or similar arrangements.

Originating products may be transported by pipeline across territory other than that of Turkey or Georgia.

 - (d) the products have not, since they were consigned for exhibition, been used for any purpose other than demonstration at the exhibition.
2. A proof of origin must be issued or made out in accordance with the provisions of Title V and submitted to the customs authorities of the importing country in the normal manner. The name and address of the exhibition must be indicated thereon. Where necessary, additional documentary evidence of the conditions under which they have been exhibited may be required.

2. The prohibition in paragraph 1 shall apply to any arrangement for refund, remission or non-payment, partial or complete, of customs duties or charges having an equivalent effect, applicable in Turkey or in Georgia to materials used in the manufacture, where such refund, remission or non-payment applies, expressly or in effect, when products obtained from the said materials are exported and not when they are retained for home use there.

In particular, they shall check whether the space reserved for the description of the products has been completed in such a manner as to exclude all possibility of fraudulent additions.
6. The date of issue of movement certificate EUR.1 shall be indicated in Box 11 of the certificate.
7. A movement certificate EUR.1 shall be issued by the customs authorities or other competent authorities and made available to the exporter as soon as actual exportation has been effected or ensured.

Article 18

 - (a) it was not issued at the time of exportation because of errors or involuntary omissions or special circumstances; or

The replacement proof(s) of origin shall be issued by the customs office under whose control the products are placed.

Article 21

Accounting segregation

1. Where considerable cost or material difficulties arise in keeping separate stocks of originating and non-originating materials which are identical and interchangeable, the customs authorities or other competent authorities may, at the written request of those concerned, authorise the so-called "accounting segregation" method to be used for managing such stocks.
2. This method must be able to ensure that, for a specific reference-period, the number of products obtained which could be considered as originating is the same as that which would have been obtained if there had been physical segregation of the stocks.

3. The customs authorities or other competent authorities may grant such authorisation, subject to any conditions deemed appropriate.
4. This method is recorded and applied on the basis of the general accounting principles applicable in the country where the product was manufactured.
5. The beneficiary of this facilitation may issue or apply for proofs of origin, as the case may be, for the quantity of products which may be considered as originating. At the request of the customs authorities or other competent authorities, the beneficiary shall provide a statement of how the quantities have been managed.
6. The customs authorities or other competent authorities shall monitor the use made of the authorization and may withdraw it at any time whenever the beneficiary makes improper use of the authorization in any manner whatsoever or fails to fulfil any of the other conditions laid down in this Protocol.

Article 22
Conditions for making out an invoice declaration

1. An invoice declaration as referred to in Article 16(1)(b) may be made out:
 - (a) by an approved exporter within the meaning of Article 23, or
 - (b) by any exporter for any consignment consisting of one or more packages containing originating products whose total value does not exceed euro 6.000.
2. An invoice declaration may be made out if the products concerned can be considered as products originating in Turkey or in Georgia and fulfil the other requirements of this Protocol.
3. The exporter making out an invoice declaration shall be prepared to submit at any time, at the request of the customs authorities or other competent authorities of the exporting country, all appropriate documents proving the originating status of the products concerned as well as the fulfilment of the other requirements of this Protocol.
4. An invoice declaration shall be made out by the exporter by typing, stamping or printing on the invoice, the delivery note or another commercial document, the declaration, the text of which appears in Annex IV, using one of the linguistic versions set out in that Annex and in accordance with the provisions of the domestic law of the exporting country. If the declaration is handwritten, it shall be written in ink in printed characters.
5. Invoice declarations shall bear the original signature of the exporter in manuscript. However, an approved exporter within the meaning of Article 23 shall not be required to sign such declarations provided that he gives the customs authorities or other competent authorities of the exporting country a written undertaking that he

accepts full responsibility for any invoice declaration which identifies him as if it had been signed in manuscript by him.

6. An invoice declaration may be made out by the exporter when the products to which it relates are exported, or after exportation on condition that it is presented in the importing country no longer than two years after the importation of the products to which it relates.

Article 23 **Approved exporter**

1. The customs authorities or other competent authorities of the exporting country may authorize any exporter hereinafter referred to as “approved exporter” who makes frequent shipments of products under this Agreement to make out invoice declarations irrespective of the value of the products concerned. An exporter seeking such authorisation must offer to the satisfaction of the customs authorities or other competent authorities evidence of the originating status of the products as well as the fulfilment of the other requirements of this Protocol.
2. The customs authorities or other competent authorities may grant the status of approved exporter subject to any conditions which they consider appropriate.
3. The customs authorities or other competent authorities shall grant to the approved exporter a customs authorisation number which shall appear on the invoice declaration.
4. The customs authorities or other competent authorities shall monitor the use of the authorization by the approved exporter.
5. The customs authorities or other competent authorities may withdraw the authorization at any time. They shall do so where the approved exporter no longer offers the guarantees referred to in paragraph 1, does not fulfil the conditions referred to in paragraph 2 or otherwise makes an incorrect use of the authorization.
6. The customs authorities or other competent authorities responsible for the implementation of the verification of proof of origin within the meaning of Article 33 of this Protocol may inform each other on the changes in granting authorizations to the approved exporters and may also mutually exchange the updated lists.

Article 24 **Validity of proof of origin**

1. A proof of origin shall be valid for four months from the date of issue in the exporting country, and must be submitted within the said period to the customs authorities of the importing country.
2. Proofs of origin which are submitted to the customs authorities of the importing country after the final date for presentation specified in paragraph 1 may be

accepted for the purpose of applying preferential treatment, where the failure to submit these documents by the final date set is due to exceptional circumstances.

3. In other cases of belated presentation, the customs authorities of the importing country may accept the proofs of origin where the products have been submitted before the said final date.

Article 25 **Submission of proof of origin**

Proofs of origin shall be submitted to the customs authorities of the importing country in accordance with the procedures applicable in that country. The said authorities may require a translation of a proof of origin and may also require the import declaration to be accompanied by a statement from the importer to the effect that the products meet the conditions required for the implementation of this Agreement.

Article 26 **Importation by instalments**

Where, at the request of the importer and on the conditions laid down by the customs authorities of the importing country, dismantled or non-assembled products within the meaning of general rule 2(a) of the Harmonized System falling within Sections XVI and XVII or heading Nos. 7308 and 9406 of the Harmonized System are imported by instalments, a single proof of origin for such products shall be submitted to the customs authorities upon importation of the first instalment.

Article 27 **Exemptions from proof of origin**

1. Products sent as small packages from private persons to private persons or forming part of travellers' personal luggage shall be admitted as originating products without requiring the submission of a proof of origin, provided that such products are not imported by way of trade and have been declared as meeting the requirements of this Protocol and where there is no doubt as to the veracity of such a declaration. In the case of products sent by post, this declaration can be made on the customs declaration CN22/CN23, or on a sheet of paper annexed to that document.
2. Imports which are occasional and consist solely of products for the personal use of the recipients or travellers or their families shall not be considered as imports by way of trade if it is evident from the nature and quantity of the products that no commercial purpose is in view.
3. Furthermore, the total value of these products must not exceed EUR 500 in the case of small packages or EUR 1200 in the case of products forming part of travellers' personal luggage.

Article 28

Supporting documents

The documents referred to in Articles 17(3) and 22(3) used for the purpose of proving that products covered by a movement certificate EUR.1 or an invoice declaration can be considered as products originating in Turkey or in Georgia and fulfil the other requirements of this Protocol may consist *inter alia* of the following:

- (a) direct evidence of the processes carried out by the exporter or supplier to obtain the goods concerned, contained for example in his accounts or internal bookkeeping;

- 2. The exporter making out an invoice declaration shall keep for at least three years a copy of this invoice declaration as well as the documents referred to in Article 22(3).
- 3. The customs authorities or other competent authorities of the exporting country issuing a movement certificate EUR.1 shall keep for at least three years the application form referred to in Article 17(2).
- 4. The customs authorities of the importing country shall keep for at least three years the movement certificates EUR.1 and the invoice declarations submitted to them.

Article 30

Discrepancies and formal errors

- 1. The discovery of slight discrepancies between the statements made in the proof of origin and those made in the documents submitted to the customs office for the purpose of carrying out the formalities for importing the products shall not ipso facto render the proof of origin null and void if it is duly established that this document does correspond to the products submitted.

2. Obvious formal errors such as typing errors on a proof of origin should not cause this document to be rejected if these errors are not such as to create doubts concerning the correctness of the statements made in this document.

Article 31
Amounts expressed in Euro

1. For the application of the provisions of Article 22(1)(b) and Article 27(3) in cases where products are invoiced in a currency other than Euro, amounts in the national currencies of Turkey and of Georgia equivalent to the amounts expressed in Euro shall be fixed annually by each of the countries concerned.
2. A consignment shall benefit from the provisions of Article 22(1)(b) or Article 27(3) by reference to the currency in which the invoice is drawn up, according to the amount fixed by the country concerned.
3. The amounts to be used in any given national currency shall be the equivalent in that currency of the amounts expressed in Euro as at the first working day of October and shall be applied from 1 January the following year. The Parties shall communicate the amounts to each other by 15 October.
4. Turkey or Georgia may round up or down the amount resulting from the conversion into its national currency of an amount expressed in Euro. The rounded-off amount may not differ from the amount resulting from the conversion by more than 5 per cent. Turkey or Georgia may retain unchanged its national currency equivalent of an amount expressed in Euro if, at the time of the annual adjustment provided for in paragraph 3, the conversion of that amount, prior to any rounding-off, results in an increase of less than 15 per cent in the national currency equivalent. The national currency equivalent may be retained unchanged if the conversion would result in a decrease in that equivalent value.
5. The amounts expressed in Euro shall be reviewed by the Joint Committee at the request of Turkey or of Georgia. When carrying out this review, the Joint Committee shall consider the desirability of preserving the effects of the limits concerned in real terms. For this purpose, it may decide to modify the amounts expressed in Euro.

TITLE VI
ARRANGEMENTS FOR ADMINISTRATIVE COOPERATION

Article 32
Mutual assistance

1. The customs authorities or other competent authorities of Turkey and of Georgia shall provide each other with specimen impressions of stamps used in their offices for the issue of movement certificates EUR.1 and with the addresses of the customs

authorities or relevant competent and duly authorized bodies responsible for verifying those certificates and invoice declarations.

2. In order to ensure the proper application of this Protocol, Turkey and Georgia shall assist each other, through the competent customs administrations and relevant competent and duly authorized bodies, in checking the authenticity of the movement certificates EUR.1 or the invoice declarations and the correctness of the information given in these documents.

Article 33 **Verification of proofs of origin**

1. Subsequent verifications of proofs of origin shall be carried out at random or whenever the customs authorities of the importing country have reasonable doubts as to the authenticity of such documents, the originating status of the products concerned or the fulfilment of the other requirements of this Protocol.
2. For the purposes of implementing the provisions of paragraph 1, the customs authorities of the importing country shall return the movement certificate EUR.1 and the invoice, if it has been submitted, the invoice declaration, or a copy of these documents, to the customs authorities or other competent authorities of the exporting country giving, where appropriate, the reasons for the enquiry. Any documents and information obtained suggesting that the information given on the proof of origin or the invoice declaration is incorrect shall be forwarded in support of the request for verification.
3. The verification shall be carried out by the customs authorities or other competent authorities of the exporting country. For this purpose, they shall have the right to call for any evidence and to carry out any inspection of the exporter's accounts or any other check considered appropriate.
4. If the customs authorities of the importing country decide to suspend the granting of preferential treatment to the products concerned while awaiting the results of the verification, release of the products shall be offered to the importer subject to any precautionary measures judged necessary.
5. The customs authorities requesting the verification shall be informed of the results of this verification as soon as possible. These results must indicate clearly whether the documents are authentic and whether the products concerned can be considered as products originating in Turkey or Georgia and fulfil the other requirements of this Protocol.
6. If in cases of reasonable doubt there is no reply within ten months of the date of the verification request or if the reply does not contain sufficient information to determine the authenticity of the document in question or the real origin of the products, the requesting customs authorities shall, except in exceptional circumstances, refuse entitlement to the preferences.

Article 34
Dispute settlement

Where disputes arise in relation to the verification procedures of Article 33 which cannot be settled between the customs authorities requesting a verification and the customs authorities or other competent authorities responsible for carrying out this verification or where they raise a question as to the interpretation of this Protocol, they shall be submitted to the Joint Committee.

In all cases the settlement of disputes between the importer and the customs authorities of the importing country shall be under the legislation of the said country.

Article 35
Penalties

Penalties shall be imposed on any person who draws up, or causes to be drawn up, a document which contains incorrect information for the purpose of obtaining a preferential treatment for products.

Article 36
Free zones

1. Turkey and Georgia shall take all necessary steps to ensure that products traded under cover of a proof of origin which in the course of transport use a free zone situated in their territory, are not substituted by other goods and do not undergo handling other than normal operations designed to prevent their deterioration.
2. By means of an exemption to the provisions contained in paragraph 1, when products originating in Turkey and Georgia are imported into a free zone under cover of a proof of origin and undergo treatment or processing, the authorities concerned shall issue a new movement certificate EUR.1 at the exporter's request, if the treatment or processing undergone is in conformity with the provisions of this Protocol.

TITLE VII
FINAL PROVISIONS

Article 37
Sub-Committee on customs and origin matters

A Sub-Committee on customs and origin matters shall be set up under the Joint Committee to assist it in carrying out its duties and to ensure a continuous information and consultations process between experts.
